

ARYAN

Full Stack Developer | Backend-Focused

Email: aryan11jr@gmail.com | Phone: +917876389507

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Full Stack Developer with professional experience building scalable backend systems and modern web applications using Node.js, TypeScript, NestJS, React, and Next.js. Experienced in microservices, WebSockets, Redis, Docker, PostgreSQL, and MongoDB with a strong focus on backend architecture, performance optimization, and distributed systems.

EDUCATION

CGC Landran

B.Tech in Information Technology

CGPA: 7.5/10.00

Mohali, Punjab

June, 2021- June, 2025

EXPERIENCE

PSQUARE COMPANY — MERN Stack Developer

Dec 2025 – Present

- Designed and developed scalable backend services using Node.js, TypeScript, and microservices architecture.
- Implemented **Docker, Redis, and BullMQ** for containerization, caching, and background processing.
- Integrated **AWS (S3, SES)** for storage and email workflows.
- Optimized **MongoDB aggregation pipelines**, improving query performance by 40%.
- Developed key features including **notification and real-time chat services**.
- Built and optimized REST APIs with efficient architecture, reducing response time and improving performance by 30–40%.

NetscapeLabs Infotech Pvt. Ltd. — MERN Stack Developer (Trainee)

Jun 2025 – Nov 2025

- Built and **deployed** 2 live production applications using **Next.js, React.js, and Node.js**.
- Developed reusable UI components using **Tailwind CSS** and **Shadcn**, improving code **reusability** and **maintainability**.
- Implemented real-time features like **live notifications** and updates using **Socket.io**.
- Integrated **REST APIs** and **Firebase** for authentication, data storage, and analytics.
- Collaborated with backend and UI teams to optimize page load performance by 30% and enhance **SEO**.

PROJECT

DevTunnel – Localhost Tunneling Platform (ngrok-style) | [GitHub](#)

Tech Stack: TypeScript, NestJS, Next.js, PostgreSQL, Prisma, Redis, Docker, WebSockets

- Built a self-hosted **ngrok-style tunneling platform** enabling secure public access to local applications through a CLI and web dashboard.
- Developed real-time HTTP tunneling using **WebSockets**, supporting dynamic subdomain registration, request forwarding, and automatic reconnection.
- Implemented **JWT authentication**, API key authorization, and secure CLI-WebSocket communication.
- Designed a scalable backend using **NestJS, PostgreSQL (Prisma)**, and **Redis** for tunnel management and metadata caching.
- Developed a Next.js dashboard for monitoring active tunnels, inspecting live HTTP traffic, and managing tunnel sessions.

SKILLS

- Languages:** JavaScript, TypeScript
- Backend:** Node.js, Nest.js, Express.js, REST APIs, Socket.IO, WebSockets, Microservices
- Frontend:** React.js, Next.js, Redux, Tailwind CSS, HTML5, CSS3
- Databases & ORMs:** MongoDB, PostgreSQL, Prisma, Mongoose
- Cloud & DevOps:** Docker, Redis, BullMQ, AWS (S3, SES), PM2
- Tools:** Git, GitHub, Postman, Firebase, Linux
